

STATE OF CONNECTICUT  
DEPARTMENT OF ENVIRONMENTAL PROTECTION

May 13, 1986

Mr. John Fleming  
Avco Lycoming Division of Textron  
550 Main Street  
Stratford, Connecticut 06497

Dear Mr. Fleming:

This letter will confirm our conversation on May 9, 1986 regarding some proposed modifications to the procedures for construction of the wastewater treatment modifications approved by the Department on May 31, 1984.

Avco Lycoming, as described in correspondence from Donna L. Ashford, Chief of Plant Design and Construction, dated April 8, 1986, plans to treat chromium-bearing wastewaters within the new equalization tanks while the old chromium treatment tanks are modified.

The procedures described are acceptable to this office. Please keep us informed if any problems with these modifications which may result in effluent violations.

Sincerely yours,

Richard D. Mason  
Principal Sanitary Engineer  
Water Compliance Unit
