Mr. George Dews  
CT DEP Hazardous Waste Section  
165 Capital Ave  
Hartford, CT 06606

Dear Mr. Dews:

It is our understanding that the soil containing volatile hydrocarbons as described in attached analysis has been on site, undisturbed, since 1980. We believe this material to be the result of operations performed 35 to 40 years ago. Based on the analysis this soil is classified as regulated waste.

  
John Fleming
