Hartford, CT 06106-5127

**Subject: USACE CONTRACT NO. DACW33-94-D-0002
TASK ORDER NO. 020
TOTAL ENVIRONMENTAL RESTORATION CONTRACT
FINAL PILOT-SCALE TREATABILITY STUDY REPORT
STRATFORD ARMY ENGINE PLANT**

Dear Mr. Feathers:

Enclosed are two copies of the Stratford Army Engine Plant (SAEP) Final Pilot-Scale Treatability Study Report. The enclosed report includes a review and evaluation of groundwater monitoring data collected from February through August 2000 in the two pilot-scale treatability test zones following the injection phases. Also, attached to this letter are the responses to CTDEP and USEPA comments on the June 30, 2000 Draft Final Pilot-Scale Test Report. This Pilot-Scale Treatability Study Report was prepared by Harding Lawson Associates under contract to the US Army Corps of Engineers, New England Division through a subcontract to Foster Wheeler Engineering Corp.

Please feel free to call me at (207) 775-5401 x3637 if you have any questions.

Sincerely,

HARDING LAWSON ASSOCIATES

for Nelson Walter, P.E.
Project Manager
